Of the following options, which is your <i>third</i> choice for funding land conservation in VT? .....	11
From the following list, what organizations are you a member of? .....	11
What kind of services or benefits do you expect from the organization or organizations that you are a member of?.....	12
How important to you is: Having working farms in Vermont?.....	12
How important to you is: Having locally produced wood products in Vermont? .....	13
How important to you is: Having farmer's markets in Vermont?.....	13
How important to you is: Having certified organic food in Vermont?.....	14
How important to you is: Having locally grown food in Vermont? .....	14
How important to you is: Having historic sites in Vermont? .....	15
How important to you is: Having affordable housing in Vermont? .....	15
How important to you is: Having working forests in Vermont? .....	16
How important to you is: Having scenic vistas in Vermont? .....	16

How important to you is: Having natural or wildlife areas that are set aside from human use in Vermont? .....	17
How important to you is: Having recreation areas for non-motorized activities such as hunting, hiking, bird watching, fishing, etc in Vermont? .....	17
How important to you is: Having recreation areas for motorized recreation activities such as snow mobiling, motor boating, etc in Vermont?.....	18
Comparison of means for the importance in having: .....	18
Have you heard about the Vermont Housing and Conservation Board? .....	19
Have you heard about the Vermont Land Trust?.....	19
Residence by Land Trust Regions .....	19
Respondents' age categories .....	19
Respondents' levels of education.....	20
Do you own or rent your home in Vermont?.....	20
Do you own any woodland? .....	20
Renters' future housing decisions.....	21
Respondents' 2005 household income categories (before taxes) .....	21
Respondents' genders .....	21
<b>Categorized and Collapsed Open-ended Responses .....</b>	<b>22</b>
What is the Top Quality about VT that makes it a unique and special place to live? ..	22
How many acres of woodland do you own?.....	23
Why or why not is land conservation important to your community? .....	23
<b>Cross tabulation Results for Vermont Land Trust Regions .....</b>	<b>25</b>
Mean importance to your community of having the following by VLT region .....	25
If land conservation in VT were to stop today what kind of impact would this have on: VT's Working Farms (By VLT Region) .....	26
If land conservation in VT were to stop today what kind of impact would this have on: VT's Working Forests (By VLT Region).....	26
If land conservation in VT were to stop today what kind of impact would this have on: VT's Tourism (By VLT Region).....	27
If land conservation in VT were to stop today what kind of impact would this have on: VT's Local Communities (By VLT Region).....	27
If land conservation in VT were to stop today what kind of impact would this have on: VT's Nature/Wildlife Areas (By VLT Region).....	28
If land conservation in VT were to stop today what kind of impact would this have on: VT's Recreational Areas (By VLT Region) .....	28
What is your <i>first</i> choice for funding land conservation in VT? By VLT region.....	29
Mean Importance of having the following in VT by VLT Region.....	30
Mean Importance in VT by VLT Region, continued.....	31
Have you heard about the VT Housing and Conservation Board? By VLT region ....	31
Have you heard about the VLT? By VLT region .....	32
Do you own or rent your home? By VLT region.....	32
Do you own any woodland? By VLT region (of respondents that owned land) .....	32
Looking to purchase or continue renting for the next year by VLT region (of respondents that rent).....	33
Income by VLT region.....	33
Educational attainment by VLT region.....	34

## **Methodology:**

### **Sample Selection:**

The sample for the poll was drawn through random digit dialing and used all of the telephone exchanges in the state of Vermont as the sampling frame. Only registered voters from VT or elsewhere were interviewed

### **Survey methodology:**

Telephone surveying began on Monday, March 6, 2006. Calling hours for the survey took place between the hours of 10am and 9pm and continued until just over 400 surveys were completed on March 17th. Specially trained UVM affiliates utilized Computer Assisted Telephone Interviewing (CATI) software to conduct interviews with randomly selected participants in the confidential survey.

### **Analysis:**

Data analysis utilized a statistical software program known as SPSS. Question types ranged from Likert-scale type questions to open-ended questions. Univariate frequency tables were constructed for each of the questions. In addition, various univariate comparison tables have been included where applicable. Bivariate, or cross tabulation tables were utilized where possible in order to analyze responses according to VLT regions. Open-ended questions were categorized and responses were collapsed where possible.

### **Confidence:**

The US Census, Vermont population estimate for 2005 is 623,050. Given this number and a total of 441 completed surveys we can make the following assertions about this data set's representation of VT's entire population. This data set has a 95% confidence level with a +/- 5 confidence interval. This means that for any answer we are 95% certain to be within a +/- 5 margin of error of the entire VT population's answer.

## Univariate Data Tables

On a scale of 0-10 where 0 means "not at all important", and 10 means "extremely important".

<b>How important is: Affordable Housing to your community?</b>		
	Frequency	Percent
Not at all Important	5	1.1
1	4	.9

## Categorized and Collapsed Open-ended Responses

<b>What is the Top Quality about VT that makes it a unique and special place to live?</b>	
Low key government	1
Politics	2
Progressive thinking	1
Government participation/ direct democracy	2
Clean	5
Clean air/water	7
Open land/space	17
Rural character	67
Smallness	3
Beauty/scenery	30
Natural environment/landscape: mountains, fields, climate, seasons, foliage, forests, lakes, farms, hunting, fishing, skiing, etc.	116
Home	8
Being a Vermonter/born here	10
Family	11
Sense of place/community	11
People: Honest, Friendly, Accepting, Progressive	31
Towns: unique/quiet/small	7
Low pop density	25
Lack of urban characteristics: crime, traffic, strip malls, billboards, commercial feeling	22
Human scale	1
Quality of life	10
Peaceful/Quiet	6
Easy living/good pace of life/laid back	10
Great bread, quality food	1
Great place to raise kids	2
History/tradition	2
Lower taxes	1
Medical care	1
Spirit	1
Style of living	1
Sustainability	1
Uniqueness	1
Spiritual renewal	1

Independence	7
Economy	1
Everything	6
Up north	1
Benefits	1
Nothing	6
Don't know	7

<b>How many acres of woodland do you own?</b>	
	Number of respondents
< 1 acre	4
1-9 acres	51
10-19 acres	39
20-49 acres	37
50-99 acres	15
100-199 acres	15
200-499 acres	9
500-999 acres	0
1000-4999 acres	0
5000+ acres	0
Total	170

<b>Why or why not is land conservation important to your community?</b>	
Important	Respondents
Control development	33
Enjoy the land without fear of commercialization and building	2
Balance between populated and unpopulated places	1
Not being over loaded with industrialization.	1
Keep industrial areas industrial and the urban areas urban	1
Control population growth	11
Control sprawl	20
Balance between industry and conservation	1
<b>Health</b>	
To help farming/agriculture	4
Tourism	14
To protect wildlife	3
Hiking and biking	10
Housing	1
	2

Public lands	10
To conserve the land/natural environment (for future generations)	79
Clean and healthy ecosystems	11
Forest are being over-cut	11
To protect a nonrenewable resource	3
Preserve open space	43
Preservation	51
Preserve rural character	15
Preserve beautiful/scenic areas	4
Community	5
Helps to maintain quality of life	14
Not Important	
People telling people what to do with their land	6
More pressing needs	1
Don't want to infringe on property owners' rights	3
Land owned by families for many years.	1
Taxes	5
Keep jobs	1
Lots of non-residential space already	1
Not important	38
